SH-G6825

Compact yet Versatile

With a footprint of just 4 m², the SH-G6825 Smith multifunctional trainer is an astonishing combination of a Smith machine, a power training rack, and a cable crossover machine, offering hundreds of training variations to suit your fitness goals.

User - friendly Design for Optimal Training Experience

Engineered for user convenience, the SH-G6825 features a 180-degree rotating pulley group, perfect for various standing and training positions. With 20 unilateral weight settings, 23 pulley adjustments, and 18 safety tube and Smith machine hanging options, it offers unparalleled flexibility and ease during your workout.

MULTI-FUNCTIONAL TRAINER

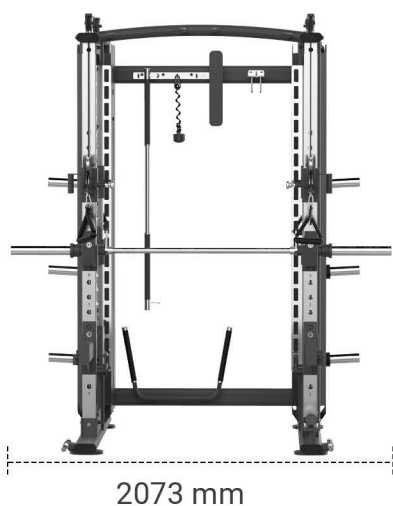

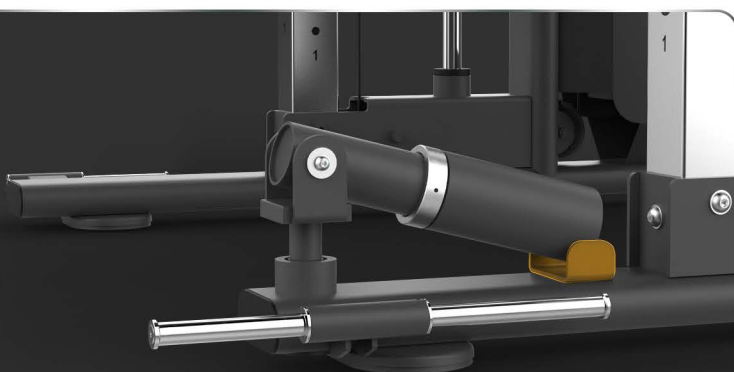

Built to Last

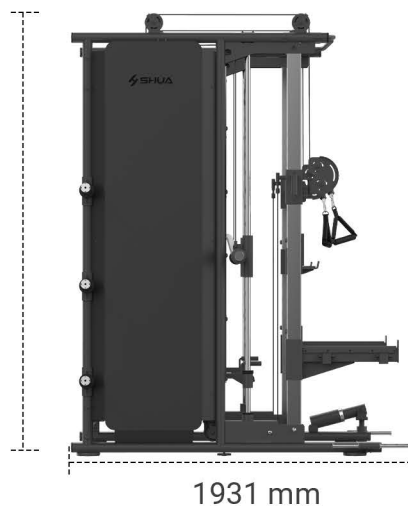

Experience the exceptional durability of the SH-G6825, equipped with precision-engineered aluminum alloy pulleys and ultra-durable steel cables. The main frame supports loads up to 600KG, while the high-strength steel cables deliver an impressive breaking force of 1400KG, ensuring peak performance and safety.

Uncompromised Safety

Featuring 18 safety bar hook positions, high-capacity protective pad, and unique U-shaped landmine tube storage slot, the SH-G6825 ensures your safety during workouts, preventing injuries from dropped weights and accidental bumps.
